## THE SPANISH LANGUAGE CENTER

The Spanish Language Center, an initiative by the Spanish School of Abu Dhabi, is dedicated to becoming the foremost reference in the United Arab Emirates for promoting multicultural understanding.

### MISSION

Our mission is to provide high-quality language instruction, immersive Hispanic cultural programs, and valuable resources for individuals and organizations.

### VISION

We envision the Spanish Language Center as the leading language and cultural hub in our region, renowned for our exceptional teaching standards, unwavering commitment to Hispanic cultural diversity, and positive impact on the Abu Dhabi community.

### OBJECTIVES

- Provide quality Spanish language instruction: We are dedicated to offering comprehensive Spanish language courses for students of all levels, ensuring effective and engaging learning experiences.
- Foster cultural understanding and appreciation: Our center aims to create a cultural space that promotes a deep understanding and appreciation of Spanish-speaking countries and their rich traditions.
- Prepare students for success: We aim to equip our students with the necessary skills and knowledge to succeed by providing opportunities for language proficiency testing and certification.
- Cultivate enriching experiences: We strive to provide a safe, dynamic, and inclusive environment that encourages dialogue, cultural exchange, and personal growth for our students and visitors.
- Build a community founded on equality and respect: We are committed to establishing a community that upholds principles of equality and respect, where everyone is welcomed and valued regardless of their background.

## VALUES

The Spanish Language Center aims at becoming a vibrant and multicultural community that embraces diversity. We hold ourselves to the highest standards and conduct our operations with integrity and respect. Our core values are:

- **Excellence:** We strive for excellence in all aspects of our language instruction and cultural programs, constantly seeking to improve and deliver the best possible experience for our students to be endorsed with official Spanish language certifications by Instituto Cervantes
- **Respect:** We value and respect the uniqueness of each individual and their cultural backgrounds, fostering an inclusive and supportive learning environment.
- **Collaboration:** We believe in the power of collaboration and actively encourage cooperation among students, faculty, and staff to create a vibrant and engaging learning community.
- **Multiculturalism:** We celebrate the richness of Hispanic cultures and actively promote multicultural understanding, embracing the diversity of our community.

By adhering to these values, we aim to create an exceptional learning environment and make a positive impact on the lives of our students and the Abu Dhabi community as a whole.

## SPANISH AS A FOREIGN LANGUAGE DIPLOMA

The Spanish Language center is proudly a DELE (Diploma de Español como Lengua Extranjera) exam center. DELE exams are administered exclusively through a network of centers recognized for this purpose.

Being a DELE exam center entails managing and organizing both the logistical-administrative part and the commercial dissemination of the calls for the DELE exams that take place every year.

### Advantages:

- It has an added value, since being part of the network of examination centers of the Cervantes Institute benefits any institution by its endorsement due to its prestige and wide worldwide recognition.
- The DELE are official Spanish diplomas, with international recognition and are perceived as a highly valued accreditation by students and teachers.
- Being a DELE exam center makes it possible to diversify the teaching offer with preparation courses for it, an important source of income that exceeds, on many occasions, what the exam itself entails.
- The DELE exam means, in turn, an incentive to attract students to the center, thanks to the offer of courses and the evaluation and certification process.

In order to be able to certify our students with the DELE certification, at the Spanish Language Center, we adhere our teaching offer to the Common European Framework of Reference for Languages, abbreviated as CEFR or CEF or CEFRL, which is a guideline used to describe achievements of learners of foreign languages across Europe and, increasingly, in other countries. The CEFR is also intended to make it easier for educational institutions and employers to evaluate the language qualifications of candidates for education admission or employment. Its main aim is to provide a method of learning, teaching, and assessing that applies to all languages in Europe.

The six reference levels (A1, A2, B1, B2, C1, C2) are widely accepted as the European standard for grading an individual's language proficiency. Here the six levels explained by Instituto Cervantes:

- A1 Breakthrough: This level is also called introductory or discovery level. At this stage the conversations are not fluid yet.
- A2 Waystage: Also called intermediate or follow-up level. The learner is capable of communicate with a person by exchanging simple and precise information.
- B1 Threshold: Independent user. The speaker can follow up a conversation and give opinions, but his capability is limited to familiar topics.

- B2 Vantage: This is the intermediate level of language acquisition. The speaker is capable of conversing spontaneously and fluently in front of a native speaker of the foreign language. The user of the language can write detailed reports related to his/her field of activity.
- C1 Effective Operational Proficiency: The user is autonomous at this linguistic level because he is able to easily read and understand complex literary texts. He/she can express himself in a sustained register tailored to his/her professional needs.
- C2 Mastery: Here the user has a perfect command of the target language. Intercultural competence above this level is achieved.

Initially, our programs can cover the levels A1 to B2 for different groups of students, which we will separate by age. To complement these teaching programs, we will offer specific workshops for different age groups especially focused on strengthening grammar, writing and conversational competencies according to the mentioned levels.

In addition, we offer courses for native and nonnative learners, in our aim to include Hispanic expatriates needs, who use the Spanish Language at home, but have specific needs in terms of grammar, vocabulary, written and oral expression.

Our portfolio will also includes tailor made courses for individuals, corporates and institutions, like preparation of DELE exams for school age individuals, and adults in general, covering all levels from A1 to C2, as well as private tutoring or tailor made programs.
